

To whom it may concern,

As a citizen of the USA, I oppose any granting or renewals of licenses to SBS, inc; In addition, I request no more aquisition approvals in Puerto Rico due to thier monopoly already present. Spanish Broadcasting System is also creating an environmental hazard in some areas of the island. I know the company engages in questionable practices. Such as involuntarily excommunicating and defrauding a Puerto Rican Family to thier homeland (PR). Also, there seems to be errors of ommision in thier 10q reports on file with the SEC for some time now. Upon request I will furnish more information about known items concerning SBS, inc; You may contact me at the address below and also thank you for your time, effort and concern in this matter.
